As part of this application form, you will need to provide the name and email address of at least one referee (depending on the award) who is willing to submit a short reference (500 words) for you. These references are an essential part of our due diligence process, and your application cannot proceed to assessment without them.

Once your application is submitted, an automatic email notification will be sent to your referee with a link that allows them to view your application and submit their reference. They will also have the option to decline the request.

The deadline for submitting references will depend on the funding round, but it is generally between 7-10 days after the application closing date. The deadline date will be clearly communicated to you and your referees during the application process. You will receive an email notification when each referee has submitted their reference. Once the required reference(s) are received, your application will proceed to the assessment round.

For more guidance on the content of the references, please refer to our [FAQ & Guidance page](#).

Please ensure you speak to your referees before including their details in the application form so they are aware of the reference requirement and the deadline. We also recommend submitting your application in advance of the closing date to allow your referees as much time as possible to complete their reference.

Each round, we encounter reference requests that are not received by the intended recipients due to misspelled email addresses. To avoid delays, please double-check that all contact details are entered correctly when submitting your application.

APPLICANT NAME

Enter the name of the applicant or person involved in the project that is known to the referee.

☐ REFEREE PROCESS CONFIRMATION

Please make sure that you contact your individual referees to ensure that they are happy to provide a reference to support your proposal and are aware of the deadlines for submissions.

It is responsibility of the applicant to make sure that requests for references are received by the referee and that they submit them on time. References submitted after the deadline will not be accepted and the application will be rejected as a result.

The Paul Mellon Centre is not responsible in ensuring that this element of the process is completed.
